

Chandan Tiwadi

FULL STACK DEVELOPER

Address: D/105 Sarswati Sadan No.7, Navghar Road, Bhayander East - 401105

Email: chandan110906@gmail.com

Mobile No.: 8879753917

SUMMARY

Full Stack Web Developer skilled in modern technologies with experience in building web applications, utilizing AI tools for efficient development and delivering client projects on time.

EDUCATION

K.P.B. Hinduja College

Bachelor of Science in Information Technology, 2024–Present

Information Technology

- Semester 1: 8.36
- Semester 2: 8.68
- Semester 3: 7.64
- Semester 4: 7.36

Durgadevi Saraf Junior College

Higher Secondary Certificate (HSC): 79.17

S.t. Agnes English High School

Secondary School Certificate (SSC): 75.75

SKILLS

- React.js Development
- Node.js Backend
- JavaScript Programming
- Database Management
- AI Tool Integration
- Responsive Design

CERTIFICATIONS

- JavaScript Bootcamp — LetsUpgrade (2025)
- Python for Beginners — Simplilearn (2024)
- Website UI/UX Designing using ChatGPT — Simplilearn (2024)
- HTML Certification — STP Computer Education (2024)
- C Programming Basics — Simplilearn (2024)

STRENGTHS

- Full Stack Web Development – AI-Assisted Development – Rapid Learning & Adaptability – Problem Solving – Team
- Collaboration – Technical Documentation – Version Control using Git & GitHub – Project Ownership & Delivery

CAREER OBJECTIVE

To secure a Full Stack Developer role where I can apply my technical expertise in modern web technologies, contribute to impactful software products, continuously expand my skill set, and grow into a highly capable software engineer while delivering value to the organization.

PROJECTS

Smart SIP (Paid Client Project)

Full Stack Trading Web Application

Jan. 2025 – March. 2025

- Technologies: JavaScript, React.js, Node.js, Database Technologies
- Developed and delivered a real-world full-stack trading platform for a client.
- Implemented features for managing trade workflows and user interactions.
- Worked directly with client requirements and production deployment.
- Successfully completed the project as a paid freelance engagement.
- Project details are confidential due to client restrictions.

DripForge (3rd Year Major Project)

AI-Enhanced E-Commerce Platform

- Technologies: React.js, Node.js, MySQL, AI Integration
- Currently developing an intelligent e-commerce platform with AI-powered features.
- Building scalable architecture for products, authentication, and user management.
- Implementing modern shopping experiences and intelligent recommendations.
- Major academic project for Third-Year B.Sc. IT.

QuickChat (2nd Year Mini Project)

Real-Time Chat Application

- Technologies: React.js, Node.js, Socket.IO, Supabase
- Developed a real-time messaging platform inspired by WhatsApp.
- Implemented instant communication using Socket.IO.
- Integrated backend services and database management using Supabase.
- Built using modern full-stack architecture principles.
